

New smoking fetish videos added at [Smoking Flicks](#)

We've added two new smoking fetish movies at [Smoking Flicks](#) – the smoking movie streaming and video download site.

Volume 13 of the Random Snaps series could be one of their most popular ever – it features all schoolgirl smoking. This part has great duos featuring Mieke and Jess, and Liz and Karina, plus a hot trio with Kate, Karina K. and Tash. There are lots of terrific solo shoots, including Maddie's always amazing smoking plus great scenes with Liz B. and Tash W. The girls are all in schoolgirl uniform, many in the schoolroom; of course, we see frenches and snaps, open-mouth inhales and smoke rings, mouth and nose exhales, and everything else you can imagine.

And Justina and Lindsay smoke non-stop through two girl-girl lingerie-nudity-and-sex scenes in this video. There are lots of smoky kisses and smoke exchanges, smoky titty-licking and pussy eating, plus a huge vibrator that comes out in the second scene. The smoking is strong and straightforward – and the action is hot.
